UNIVERSAL MYSTERIES: DABADDAH (PAPERBACK)

Universal Mysteries, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Universal Mysteries is a fascinating, and in most ways, a unique book. It provides the answers to many intriguing questions about the origin and the nature of the universe, as well as the purpose of humans. It is an ideal read for contemplative minds seeking to understand the scientific basis of spirituality in a comprehensive and concise way. Over the centuries, Sufism communicated the reality of non-duality. It told us what we observe as the world-out-there is in fact a virtual image and the ultimate reality is the Oneness of all that is. This Oneness, that comprises the essence of all things, can only be realized by getting rid of the delusion of being a separate individual. Today, science also claims the same thing; it reports the universe is a giant hologram. As it turns out, this splendid detailed illusion only looks concrete to us because of our brains ability to convert a boundless ocean of waves into the projection of what we observe as our physical world. We are in fact creating this quantum reality at all times, as non-local atoms localize and manifest as physical objects at the sight of a conscious observer. In other words, the apparently material world in which we are living is generated by our very act of observing and interpreting. This simply means that our universe and everything dwelling in it has two different aspects to its reality. One is the physical world, or the field of cosmic data receptive to our five senses; and the other is the spiritual world, or the dimension of cosmic energy and consciousness that our sensory perception fails to pick up on! In the same way, we can observe...
